Folio Expert™ Universal Tablet Cover Stand

K44407WW

Product Description

Protect your 7” or 8” tablet from scratches and bumps while on the go with the remarkably lightweight and compact Kensington Folio Expert Universal Cover Stand. The unique Microsuction technology accommodates a wide range of tablets including Google Nexus 7, Acer®, Samsung Galaxy Tab™ 7.0 and Note® 8.0, and iPad® mini. The remarkable MicroSuction technology is literally millions of miniature suction cups that securely hold your tablet without adhesives. No adhesives means there is no sticky residue. It also means that your tablet can be removed and reattached countless times. Another advantage of MicroSuction technology is that it’s not form-factor dependent. So any device with a smooth back, including future tablets and your smartphone can be used in the Folio Expert Universal Tablet Cover Stand. The MicroSuction technology also keeps the Folio Expert ultra light and sleek.

Once inside, your tablet is wrapped in a layer of soft microfiber that protects it from scratches and even wipes off fingerprints and smudges. And the elastic band closure keeps the Folio Expert cover secure when on the go. When you reach your destination, the Folio Expert easily converts to landscape viewing.
